

Athos

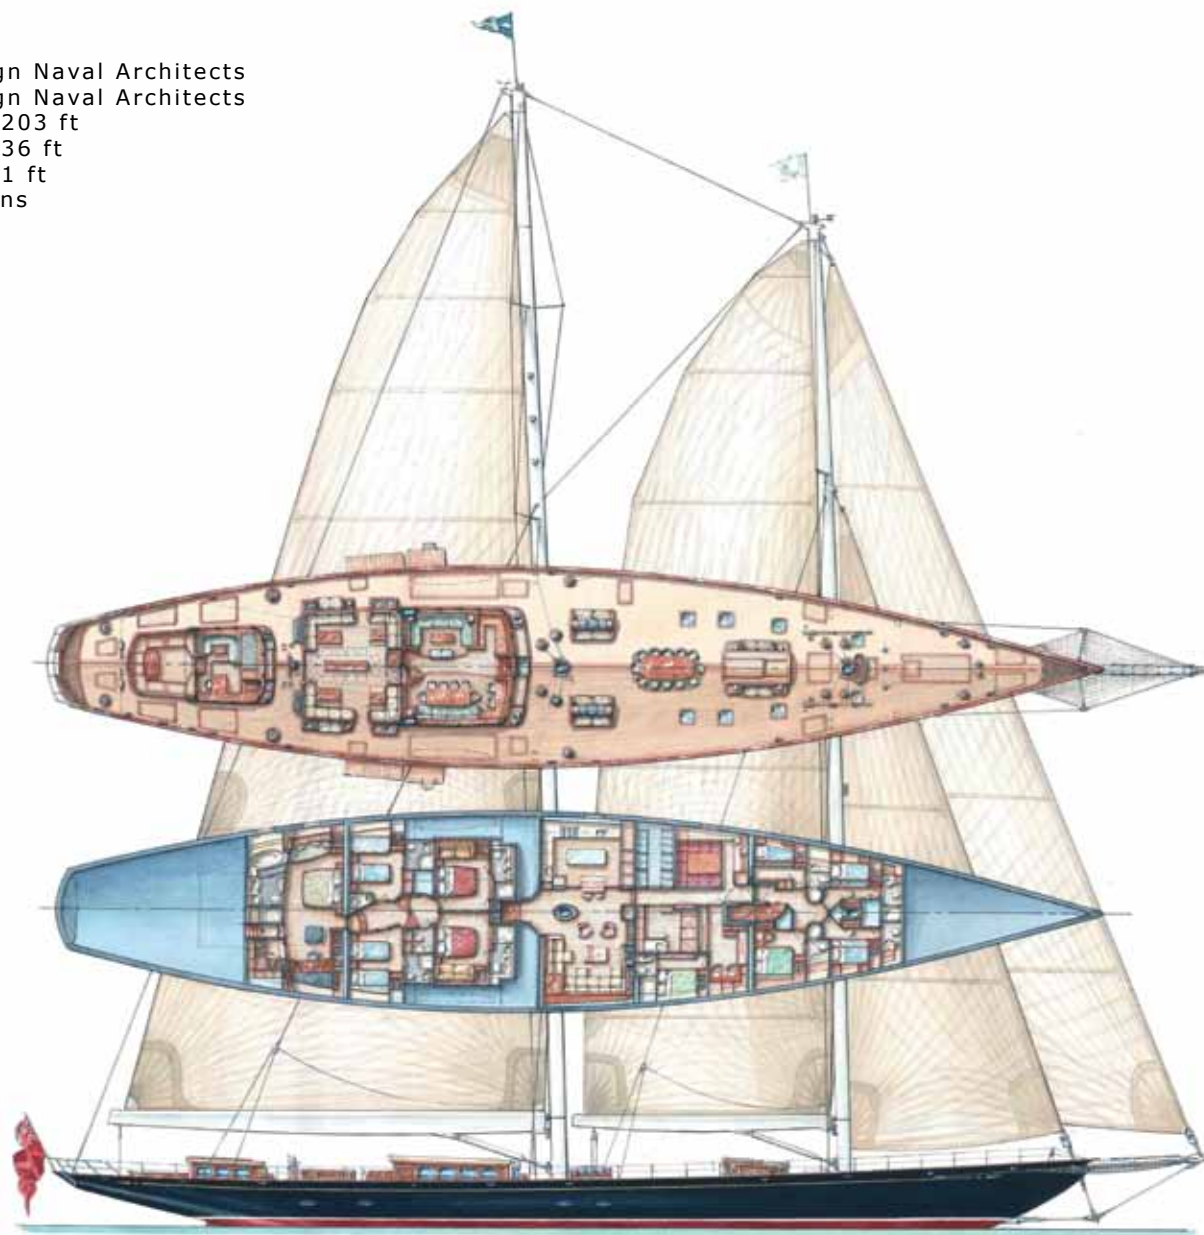

By Holland Jachtbouw

Specifications Athos

Designer: Hoek Design Naval Architects
Interior Designer: Hoek Design Naval Architects
Length over all: 62.00 m / 203 ft
Beam: 10.88 m / 36 ft
Draught: 3.52 m / 11 ft
Displacement: +/- 370 tons

Athos is the world's largest privately-owned two-masted schooner and the most technologically sophisticated classic sail yacht to date. Built in 5383 aluminium, designer Andre Hoek and Holland Jachtbouw teamed up with a highly committed owner to introduce a raft of engineering innovations. These include an unprecedented hydraulic system that required over 30 km of wiring and offers some 450 kW of power. *Athos* has double redundancy for almost every system and also features dynamic positioning, a fully integrated stern anchor and a hydraulically operated centreboard
